DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114.
2. Applicant's submission filed on March 14, 2006 has been entered and made of record.

Response to Arguments

Claim Rejections - 35 USC § 112

3. Applicant's arguments filed 9/23/2005 and 3/14/2006 with respect to Claims 21 – 40 have been fully considered and are persuasive in view of the terminal disclaimer filed on 9/23/2005 and the interview held on March 24, 2006.

Regarding claim 36, the word "means" is preceded by the word(s) "arranged to convert", in an attempt to use a "means" clause to recite a claim element as a means for

performing a specified function. However, since no function is specified by the word(s) preceding "means," it is impossible to determine the equivalents of the element, as required by 35 U.S.C. 112, sixth paragraph. See *Ex parte Klumb*, 159 USPQ 694 (Bd. App. 1967).

Examiner suggested to replace "arranged to convert" with "for converting". Applicant has agreed for the change and authorized the Examiner to amend the claim. In view of this, the rejection 35 USC 112 of Claims 21 – 40 has been withdrawn.

Allowable Subject Matter

4. Claims 21 – 40 are allowed.
5. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
6. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Larry Liberchuk, registration number 40,352, on March 24, 2006.

IN THE CLAIMS:

36. (Amended) A processor for cryptographically converting a digital input block into a digital output block; said processor comprising:

a first input means for obtaining said digital input block;

a second input means for obtaining a first key K1; and

a cryptographic processing means for ~~arranged to converting~~ the digital input block into the digital output block by executing a non-linear function g for non-linearly merging said selected part M1 and said first key K1 in one step and producing a data block B1 which non-linearly depends on said selected part M1 and said first key K1, where a selected part of said digital output block is derived from said data block B1.
